## R topics documented:

source.gist . . . . . 1

**Index** 3

---

source.gist                      *Read R code from a GitHub Gist*

---

### Description

source.gist causes R to accept its input from the given GitHub Gist URL or ID. The Gist is parsed and evaluated in the global environment.

### Usage

```
source.gist(id)
```

**Arguments**

id a GitHub Gist URL or ID.

**Author(s)**

Mason Simon
